

Table X

Summary Statistics for Analytic Sample Posttest and Delayed-Posttest by Treatment Condition

	<i>n</i>	Raw total score		Z-transformed total score	
		<i>M</i>	<i>SD</i>	<i>M</i>	<i>SD</i>
Fall 2014 posttest					
Control	69	21.6	6.32	-0.167	0.978
Treatment	70	23.7	6.47	0.165	1.000
Spring 2015 delayed-posttest					
Control	40	22.5	6.77	-0.145	1.070
Treatment	44	24.3	5.83	0.132	0.923
<p><i>Note.</i> Summary statistics pertain to the DTAMS Middle School Probability-Statistics Assessment version MS PS v3.3 at posttest and MS PS v4.3 at delayed-posttest. In the analyses performed and reported in the published manuscript, raw total scores were used for reporting sample descriptive statistics, and z-transformed total scores were used in the regression analyses.</p>
